

INDEX

- acid rain: mitigation, 10, 259*n*5;
precipitating Stockholm
Conference, 139–140; in Sweden, 33
- Action Plan for the Human
Environment (Stockholm
Conference): implementation
record, 250*n*9; priorities, 49;
recommendations, 32, 47–48
- Adams, W. M.: on ecodevelopment, 57,
194–195; on scientific ecology, 137–
138; on Stockholm Conference, 32,
47; on World Conservation Strategy,
60, 145–146
- additionality principle, 13, 93–95, 249*n*5
- Adler, Emanuel, 20, 23, 123, 128, 264*n*8
- Advisory Group on Greenhouse Gases
(AGGG), 163–164, 166, 224, 262*n*47
- agency, in ideas formulation, 221
- Agenda 21 (Earth Summit): ASCEND
21 impact, 157; funding, 95, 96;
implementation, 88; market-
friendly measures, 97; negotiations,
100; omissions, 121; Polluter Pays
Principle, 106; preconference
negotiations, 92; Programme for
Further Implementation, 115;
scientific impact on, 156–157;
subsidies, removal of 97; UNGA
Special Session to Review
Implementation of Agenda 21
(UNGASS), 110–118
- An Agenda of Science for Environment
and Development in the 21st
Century (ASCEND 21), 157–158
- Agrawala, Shardul, 163, 164, 166
- Agreement on Sanitary and
Phytosanitary Measures (SPS
agreement), WTO, 238
- Al-Hamad, Abdlatif Y., 42
- alternative energy technologies, 173
- Anderson, Terry, 268*n*14
- Andresen, Steinar, 176, 225
- Arda, Mehmet, 204
- Arrow, Kenneth, 227, 262*n*50
- ASCEND 21, *see* An Agenda of Science
for Environment and Development
in the 21st Century (ASCEND 21)
- Ashley, Richard K., 186
- Astrom, Sverker, 41
- atmospheric science, 146

- Basel Convention on the
Transboundary Movement of
Hazardous Waste (1989), 103, 255*n*45
- BCSD, *see* Business Council for
Sustainable Development (BCSD)
- Beef Hormone dispute, 152, 238
- Beijer Institute, 162, 163
- Benedick, Richard Elliot, 127, 148
- Bergen Ministerial Declaration on
Sustainable Development in the
ECE Region (May 1990), 79
- Bernstein, Steven, 182, 185, 217, 248*n*31
- Bhaskar, Roy, 185
- Biersteker, Thomas, 72, 73, 240
- Binder, Jill E., 41, 42
- biodiversity, 85, 92, 113, 117, 136, 150, 159
- Biosafety Protocol, 107, 237–239
- Biosphere Conference (1968), 32, 137–139
- biosphere, 130, 131, 153
- Birnie, Patricia, 106
- Blyth, Mark M., 18, 182
- Bodansky, Daniel, 91, 165, 169
- Boehmer-Christiansen, Sonja, 160–162,
167–169, 221
- Bolin, Bert, 150, 161, 163, 169, 261*n*40,
262*n*45
- Boutros-Ghali, Boutros, 267*n*33
- Bowler, Peter J., 132, 133
- Boyle, Robert H., 165
- Braadbaart, Okke, 226, 231, 232
- Brandt, Willy, 59
- Brazil, in Stockholm conference, 36
- Broad, Robin, 241, 269*n*20
- Brodeur, Paul, 148
- Brown, Donald A., 111, 175, 260*n*26
- Brown, Janet Welsh, 93–94, 97, 99, 100,
102
- Bruce, James, 134, 156, 162, 166–167, 169–
171, 261*n*42, 267*n*4
- Brundtland, Gro Harlem, 61–62, 164,
191, 200
- Brundtland Commission, *see* World
Commission on Environment and
Development (WCED) [Brundtland
Commission]
- Bush administration (1989–1993), 81,
206
- Business Council for Sustainable
Development (BCSD), 15, 121,
258*n*68
- Busumtwi-Sam, James, 72, 182, 185,
248*n*31
- Caldwell, Lynton Keith, 57, 137, 139, 143,
175, 194
- Callender, G. S., 161
- Cameron, James, 106
- Canada: in Earth Summit, 98–99, 102;
Stockholm Declaration proposals,
43–44; Trail Smelter case, 47
- Canadian Global Change Program, 135
- Cancian, Francesca, 5
- Caponera, Dante A., 180
- Caporaso, James A., 21, 26, 217
- carrying capacity, of ecosystems, 141,
157
- Carson, Rachel, 33
- Cartagena Commitment, 72–73, 204
- Cartagena Protocol on Biosafety, 237–
239
- causality: causal and constitutive
explanations, 22–25; formal,
mechanistic, 23, 25; informing
beliefs, cause-effect knowledge, 220;
narrative, 24, 25, 222; prediction
and, 25; in socio-evolutionary
approach, 22–25, 222
- cause-effect knowledge, 20, 174
- Cavanagh, John, 241, 269*n*20
- certification programs, in forest
management, 116–117, 257*n*59
- change, evolutionary, 216–217, 267*n*1
- The Changing Atmosphere:
Implications for Global Security
(Toronto, 1988), 164
- Charter of Economic Rights and
Duties of States, 55
- Chasek, Pamela, 98, 99
- Chatterjee, Pratap, 7, 98, 100, 234
- Checkel, Jeff, 183, 199
- Chernobyl nuclear accident, 85, 165
- Chinkin, C. M., 30
- chlorine, in ozone depletion, 147–150
- chlorofluorocarbons (CFCs), 148, 149

- Chopra, Jarat, 240
- Clapp, Jennifer, 117, 240
- Clark, William, 134, 153–155, 162, 175–176, 259*m*10, 261*n*42
- Clean Air Act of 1990 (U.S.), 81, 206, 227
- climate change: Clean Development Mechanism, 118, 204; Common Heritage Principle, 90–91; as commons problem, 236; conferences, 162; as Earth Summit issue, 160; epistemic communities and, 159–173; as global issue, 160, 236; government control of research, 166–167; human-induced, 161, 262*n*46; incentive-based policies, 232; interest-based cooperation in controlling, 10; Kyoto Protocol, 118–121; liberal environmentalism in, 170, 232–233, 258*n*65; research agendas, 168–169; scientific influence on policy formation, 172; socioeconomic factors, 168; temperature increases, 262*n*46; U.S. policy, 165–166
- Climate Impact Assessment Program, 260*n*25
- Clinton administration, 81
- Club of Rome, 33, 41
- Cocoyoc Declaration, 50, 54–56
- cognitive evolution, 264*n*8
- Cohen, Steward, 172
- Colby, Michael E., 47, 250*m*16
- Cold War, 61, 72, 86
- collective intentionality, 249*n*38
- colonialism, in developing countries, 193
- common but differentiated responsibility: in Earth Summit, 93; in Framework Convention on Climate Change (FCCC), 105; as norm, 95; under Polluter Pays Principle, 115; in Rio Declaration, 99, 105, 108
- Common Heritage Principle (CHP): alteration in UNCLOS, 90; in biodiversity discussions, 90, 211; climate change debate, 90–91; contestation over, 236; decline in legitimacy, 89–91, 207; gendered language in, 250*n*7; lack of institutionalization, 91; legal status, 254*n*31; in Rio Declaration, 102; vs. Polluter Pays Principle, 89, 91
- compromise, normative, 210
- Conable, Barber, 75
- Conca, Ken, 208
- Conference on Environment and Development in Asia and the Pacific (Bangkok 1990), 79
- consensual knowledge: in epistemic communities, 129; impact on environmental governance, 224; impact on norms, 177; political impact, 174
- consensus, scientific, 127
- conservation: Stockholm Declaration principles, 45; in World Conservation Strategy, 145
- constructivism, 20–21, 23, 24, 182–184, 223, 246*m*17, 264*m*10
- consumption patterns, 157–158
- contagion of legitimacy, 187–188
- contingency and determinacy, 217
- Convention on Biological Diversity: Cartagena Protocol on Biosafety (Biosafety Protocol), 107, 237–239; common concern language, 90; negotiations, 88, 159–160; norms in, 98, 102, 107
- Convention on the Law of the Sea, *see* United Nations Convention on the Law of the Sea (UNCLOS III)
- cooperation: interest-based, 8–17; international, 47, 65, 68; neoliberal and neorealist explanations for, 9; rational, 3, 9, 215–216
- core values: in ecology, 133–134; in politics, 9
- Corea, Gamani, 42
- cost-benefit analysis, 81, 197, 233, 268*m*13
- counterfactuals, 25, 137, 153; alternative historical branches, 218
- Cox, Robert W., 4, 14, 247*n*28
- critical theory, 4

- Crutzen, Paul, 261*n*40
 Czempiel, Ernst-Otto, 246*m*10
- Dabholkar, Uttam, 73
 Dales, John Harkness, 179
 de Almeida, Miguel Ozorio, 34, 192
 Declaration on the Human Environment (Stockholm Declaration), 42–47; Chinese influence on, 43–44; conservation principles, 44–45; developing countries' proposals, 44–45; development principles, 45, 48; drafting of, 36, 43–45; environmental law and, 46–47; environmental protection norm-complex, 47–48; environmental/development compromise, 43–44; Founex Report influence, 43; implementation, 49; international cooperation principles, 47; national and regional planning principles, 46, 48; on nuclear weapons, 47; principles, 32; research and education principles, 46; rights and duties of states, 46; sovereignty over resources, 47, 48
- de Cuellar, Javier Perez, 207, 267*n*33
 deforestation: as Earth Summit issue, 85; *see also* forest management
- de Seynes, Philippe, 41
 Dessler, David, 5, 182, 186, 264*m*10, 265*m*14
 determinacy and contingency, 217
 Deudney, Dan, 208, 243, 267*n*35
 developing countries: Common Heritage Principle, rejection of, 90; Earth Summit preconference negotiations, 92–93, 96; economic liberalism, acceptance of, 72, 73; environmental policy impacts on, 36–37, 255*n*41; group self-identities, 193; socioeconomic changes in, 193, 203, 266*n*27–28; Stockholm Conference concerns, 34–36, 44–45
 development: Biosphere Conference and, 137; Brundtland Commission norm-complex, 68; climate change and, 162; environmental issues affecting, 84; environmental protection and, 202; in Kyoto Protocol, 118; market adaptations, 77; noneconomic goals, 241; right of, in Rio Declaration, 101, 103–104, 255*n*48; in Stockholm Conference agenda, 192; Stockholm Declaration principles, 45, 48; traditional methods, 114–115; World Bank role in, 74; in World Conservation Strategy, 145–146
- disasters, environmental: affecting Earth Summit, 85; Chernobyl nuclear accident, 85, 165; notification requirements, 43, 103, 250*m*12, 255*n*49; oil spills, 33, 85; toxic gas leak (Bhopal, India), 85
- discourse analysis, 17–18, 247*n*30
