

Structure of Part II

Introduction	223
<hr/>	
1 Sector Analysis	227
<hr/>	
What is Sector Analysis?	227
How to Determine Which Sectors Are Critical	228
Examples of How to Determine Which Sectors Are Critical	229
How to Specify Characteristics of Critical Sectors	232
Examples of How to Specify Characteristics of Critical Sectors	232
2 Interdependency Analysis	243
<hr/>	
What is Interdependency Analysis?	243
How to Categorize Interdependencies in Terms of their Environment	244
Examples of Interdependency Analyses	246
3 Risk Analysis	250
<hr/>	
What is Risk Analysis?	250
Steps Included in an IT Risk Analysis	252
Examples of Risk Analysis Processes for CI/CII	256
4 Threat Assessment	270
<hr/>	
What is Threat Assessment?	270
Examples of Threat Assessment Aspects	271
5 Vulnerability Assessment	277
<hr/>	
What is Vulnerability Assessment?	277
Examples of Vulnerability Assessments	278
6 Impact Assessment	287
<hr/>	
What is Impact Assessment?	287
Examples of Impact Assessment	289

7 System Analysis	294
What is System Analysis?	294
Examples of Modeling and Simulation Research Projects	295
